NEW YOTSPACE VOYAGES FOR 2021/22 SEASON

YOTSPACE have announced the new SuperYacht voyages for the 2021-2022 season, including custom built itineraries and new ways for travellers to experience remote Australian destinations. One of the highlights for the season is the Phoenix One voyage, which will explore the Northern Section of the Great Barrier Reef and Lizard Island, offering the clearest bodies of water found in the sanctuary, as well as corals and marine life.

YOTSPACE also offer five-star cuisine and beverages, as well as a range of water toys including a sea scooter and water skis for some fun before travellers wind down in the upper deck jacuzzi. Bookings are available on their website.
