

Luxury tours of the Kimberley

Big savings are available on the debut sailings of a new ultra-luxe catamaran doing tours of the Kimberley.

Australian superyacht specialist, YOTSPACE, has announced the launch of the vessel carrying just eight guests that can be booked by the cabin or as a private charter.

Eclipse is available for 26 all-inclusive, seven-night expedition cruises in the Kimberley from April to October, with two different itineraries running on rotation.

YOTSPACE is offering 15 per cent savings for cabins or whole-vessel charters booked by February 29.

"We're inviting discerning adventurers to experience an exclusive and environmentally conscious, new way to journey through the Kimberley," said Nicholas Mason, owner of YOTSPACE.

"It's a five-star, fully crewed voyage for just four couples offering an indulgent VIP luxury yacht experience for a fraction of the cost, with gourmet meals, beverages and shore adventures all included."

The high-tech catamaran offers plush, airconditioned cabins with ensuites and ocean views, and open-air and interior dining areas and lounges for relaxation.

"We're bringing the rarefied world of luxury yachts to the mainstream market, redefining cruising in the Kimberley," Mr Mason added.

Individual cabins are available from \$9,520 per person twin share with whole charter fares starting from \$72,590.
